

LASER // NIGHT DRIVER [lyric sheet]

Bleed You:

They will bleed you
When they need to
Until you're all gone

You concede to them
And you heed to them
You have all along

You're four feet underground
And you're sinking
They are firmly planted
And they're slowly digging

They don't need to care
You're just buried there
Nameless grave attack
'Til you gave it back
So you lie on stones
Cause they took it all
So you lie alone
Cause they took it all

They deceived you
And they cheated you
You just didn't know
You believed in them
Leaving it to them
You just didn't know

Disco Night Driver:

Ya, it's alright if you leave me tonight
And It's ok, if you go away

Just be aware
It's not safe out there
Don't be too guarded
Or too soft hearted

I had decided that you were overdue
You were behind, so I gave up on
you

Just be aware
It's not safe out there
Don't be too guarded
Or too soft hearted

My mind was blinded from your dirty
truth
Now I'm reminded that it's only you
And you were falling behind
And I didn't have time
You were falling behind
I had crossed that line with you
before
Thought you were on my side
But your secret lied
And you fall behind
So you better hide from me once
more

Just be aware
It's not safe out there
Don't be too guarded
Or too soft hearted X2

I was falling in love with you
I was falling all over you

And you were falling behind
'Cause you didn't have time
You were falling behing
I was falling in love with you

I was falling in love with you
I was falling all over you

LASER // NIGHT DRIVER [lyric sheet]

Disconnect:

Oh, there's been a disconnect
Oh, and I know that you will not
forget it
Where did we go
Seems like there's no regret
Do we let it go
Or do we just eject it

So you better look at what you need
And call it so we can proceed
And no you don't have to explain
Or repeat and replay the refrain

Oh, there's been a disconnect
Oh, and I know that you will not
forget it
Where did we go
Seems like there's no regret
Do we let it go
Or do we just correct it

So I better look at what I need
And call it so we can proceed
And no I don't care to explain
Or repeat and replay the refrain
It's the giving and giving away
And the movement in what we say

There's been a disconnect
Oh, and I know that you will not
forget it
Where did we go
Seems like there's no regret
Do we let it go
Or do we protect it

It's the giving and giving away
And the movement in what we say
But the giving is going away
And replacing the words we say

Do We All Feel It?

Do we all feel it?
Do we all feel it, now?

The way that you lived you, you lived
it your way
And we can forgive it or give it away

So you did it for you, like we knew
you would do
And it wasn't easy, but easier to

Do we all need to feel it, now?

We all lifted your shadow
We made it a game
To hold you in limbo
To keep you sustained

So you hid under buildings
Alone with yourself
Defeated and lonely
With nobody's help

Do you all know that you're feeling it
now?

LASER // NIGHT DRIVER [lyric sheet]

Leavin' it too Late:

Leavin' it too late

Oh, I am not tired
I'm just so bored
Of listening to you snore
I'm not yawning
I'm just gasping for air
And I'm restless
'Cause you're laying there

The truth beat the youth when
they're trying to fake it
The prize at the end, end of the line
It was fine, it was mine, it was only
mine

Leavin' it too late

Oh, I've been here a little too long
And you've overstayed your
welcome
It is time for one of us to move on
So when you wake up I will be gone

Leavin' it too late

Oh, the time that I have wasted on
you
Is another case of following through
With distraction and rejecting the
course
I have written without the remorse

Oh, I could have prevented this
scene
And honestly protected your means
But I did what I did and I can't take it
back
Yes, I do what I do and I'm sorry for
you

Leavin' it too late

Oh, you do what you do and I used
to take it
Now you do what you do and I
mistake it
It was me, up to me and I'm starving
to face it
The cause is the time so I'm trying to
place it
The crime meets the lie and I'm
climbing to chase it

LASER // NIGHT DRIVER [lyric sheet]

Linda:

You said it all
When you set it up for me
You took my fall
And you stood right up for me
You gave it all for me
So you're gonna be with me always

Oooh...

I woke you up
You were waiting there for me
Your days were long
So you fell asleep
And you did what you had to do
To keep from me
All the things you had to do

Maniacs:

You didn't like it
And they had to know
That the minute they'd spike it
You'd fall through the floor

Now it's all you've got

They were all in on it
While the game was played
You're an object within it
And your face was made

You're a reject of fortune
And a subject of loss
It's a shame that it's more than
It's already cost

Now it's all you've got

They have been revoking
The armor you need
And they're lighting and stoking
The fire while you plead

Now your fate is approaching
You can clearly see
That it's humans they're poaching
And there's no retreat

A designed tragedy

Now it's all you've got

But is it really all you got

Now it's all you've got
